Education

BSc (Hons) Technology Management

University of Wales,

Part-completed, achieved 2:1 in first year

10 GCSE passes, 2 A-Level passes

Marling Grammar School,

English and Art

About me

Senior technical writer with 20+ years in documentation and six years focused on developer content in high-growth fintech and SaaS environments. Strong track record in docs-as-code, developer portals, API and integration documentation, and cross-functional work with engineering teams to improve adoption and reduce friction. Particularly effective at turning complex product areas into clear onboarding journeys, scalable content structures, and maintainable documentation workflows with an AI-assisted toolchain.

Work experience

Senior Technical Writer | Dec 2025 - Present

Backbase, remote

- Produce technical documentation for solution engineers and developers working on complex banking implementations
- Drive adoption of standardised documentation workflows to improve consistency across distributed teams
- Use an AI-first workflow to extract implementation details from source code and accelerate delivery without lowering quality

Documentation Manager | Jul 2023 - Nov 2025

Backbase, remote

- Lead distributed team of technical writers, enhancing collaboration, productivity, and growth
- Partnered with engineers and solution teams to produce developer guides for complex banking software
- Championed AI tool adoption while maintaining rigorous quality standards and repeatable review practices

Senior Technical Writer | Nov 2021 - Jul 2023

Backbase, remote

- Created comprehensive technical and integration documentation for global banking software
- Implemented the Google Developer Documentation Style Guide across EMEA teams
- Improved peer review processes and content strategy to support faster, more reliable release cycles

Technical Account Manager | May 2021 - Oct 2021

Viva Wallet, remote

- Served as primary technical liaison for enterprise clients during high-stakes system incidents
- Authored payment API guides and technical enablement content that supported developer adoption
- Built a fully automated docs-as-code pipeline using GitHub and Markdown

Technical Writer | Jan 2019 - Apr 2021

Viva Wallet, remote

- Built a developer portal from scratch using docs-as-code workflows, giving the company its first scalable developer documentation platform
- Wrote API, SDK, and plugin documentation for a payment integration platform, helping developers move from initial setup to successful implementation faster
- Established documentation analytics and feedback loops to support data-driven content optimisation

Digital Content Officer | Apr 2018 - Dec 2018

University of the Arts London (UAL), London

- Led large-scale content migration during CMS transition impacting more than 20,000 students
- Redesigned online forms and workflows to support diverse student population
- Collaborated across IT and academic departments to ensure seamless digital transformation

Technical Writer | Sep 2017 - Feb 2018

ipagoo, London

- Created Open Banking API documentation during a critical regulatory transition
- Launched the company's first developer portal in a high-growth fintech startup environment

Technical Writer (Contract) | Jun 2016 - May 2017

MIRACL, London

- Documented complex cryptographic SDKs and multi-factor authentication platforms
- Conducted technical reviews and testing on AWS infrastructure for worldwide deployment
