Marling Grammar School

English and Art

About me

Senior technical writer with 20+ years in content and documentation, including 6+ years focused on developer documentation in fintech and SaaS. Experienced in docs-as-code, developer portals, API and SDK documentation, and documentation operations that improve adoption, reduce friction, and support faster delivery. Particularly strong at turning complex product areas into scalable content structures, onboarding journeys, and maintainable workflows using modern AI-assisted tooling.

Work experience

Senior Technical Writer | Dec 2025 - Present

Backbase, remote

- Author technical documentation for solution engineers and developers delivering complex banking implementations
- Standardise documentation workflows to improve consistency across distributed teams
- Maintain an AI-first workflow to extract implementation details from source code and accelerate delivery without lowering quality

Documentation Manager | Jul 2023 - Nov 2025

Backbase, remote

- Led a distributed team of technical writers, improving collaboration, productivity, and team growth
- Wrote developer guides with engineering and solution teams for complex banking software
- Developed AI-assisted authoring workflows while maintaining rigorous quality standards and repeatable review practices

Senior Technical Writer | Nov 2021 - Jul 2023

Backbase, remote

- Created comprehensive technical and integration documentation for global banking software
- Implemented the Google Developer Documentation Style Guide across EMEA teams
- Improved peer review processes and content strategy to enable faster, more reliable release cycles

Technical Account Manager | May 2021 - Oct 2021

Viva Wallet, remote

- Acted as the primary technical liaison for enterprise clients during high-stakes system incidents
- Produced payment API guides and technical enablement content to support developer adoption
- Built a fully automated docs-as-code pipeline using GitHub and Markdown

Technical Writer | Jan 2019 - Apr 2021

Viva Wallet, remote

- Launched the company's first scalable developer documentation platform by creating a developer portal from scratch with docs-as-code workflows
- Produced API, SDK, and plugin documentation for a payment integration platform to help developers move from initial setup to successful implementation faster
- Established documentation analytics and feedback loops to enable data-driven content optimisation

Digital Content Officer | Apr 2018 - Dec 2018

University of the Arts London (UAL), London

- Led large-scale content migration during a CMS transition affecting 20,000+ students
- Redesigned online forms and workflows to better support a diverse student population
- Coordinated IT and academic stakeholders to deliver a seamless digital transition

Technical Writer | Sep 2017 - Feb 2018

ipagoo, London

- Produced Open Banking API documentation during a critical regulatory transition
- Launched the company's first developer portal in a high-growth fintech startup environment

Technical Writer (Contract) | Jun 2016 - May 2017

MIRACL, London

- Authored documentation for complex cryptographic SDKs and multi-factor authentication platforms
- Conducted technical reviews and platform testing on AWS infrastructure for worldwide deployment

Technical Writer (Contract) | Mar 2016 - May 2016

Mumsnet, London (on-site)

- Created comprehensive onboarding documentation for distributed Java, iOS, and Android teams
- Designed infrastructure diagrams and process flows supporting remote engineering operations
- Established knowledge-sharing protocols that improved developer onboarding efficiency

Web Manager | Aug 2012 - Mar 2016

Chartered Institute of Public Relations (CIPR), London

- Managed content strategy for the corporate website serving PR professionals across multiple regions
- Led digital campaigns, including national awards, by coordinating remote cross-departmental teams

Web Editor (Contract) | Jan 2010 - Aug 2012

Chartered Institute of Public Relations (CIPR), London

- Delivered a comprehensive site migration and improved legacy content quality
- Maintained content quality and consistency across a multi-year digital transformation initiative
